
Caractéristiques

- **Lieu:** Entre Monte Civetta et Cima Busazza
- **Orientation :** Ouest
- **Hauteur:**
- **Matériel:**
- **Posé:** Identique à Busazza
- **Première:** Niklas Winter, 2020

Accès: compliquée

Exit Coordonnées GPS: 46.371390, 12.046407

Approach: complicated, some sort of climbing necessary. I didn't go the normal route but went along the ridge from Busazza, which I would only recommend if you really know what you're doing. It is exposed, has loose rocks and doesn't allow a loss of focus and you can easily get lost. The approach was definitely more demanding and thrilling, than the jump.
