
Caractéristiques

- **Lieu:** from an old notebook:

Col Rosa : north of Cortina. Short flight but nice exit, not far from the summit.

Punta Fiames : in front of Col Rosa, a bit south. Exit right below the summit.

Pezories : right in front of Col Rosa. Same ferrata than Punta Fiames and some scrambling at the end. Two possible exits found so far, one just next some tunnels and the other a bit further north.
