
Caractéristiques

- **Lieu** : Erzurum, Turquie
- **Orientation** : Sud
- **Hauteur** : 570m
- **Matériel** : Rien
- **Posé** : "It is seen from the exit. There is one big field adjacent the road at the east of exit. The wind at the exit is mostly from north. And the wind at the exit is close to zero in the morning. It gets a bit south wind at noon and it creates great lift for really nice short starts. Return Trip: Either car should get down and pick you or you should hitchhike to town."
- **Première** : Cengiz Kocak in 2019

Acces: 0:15m

Exit Coordonnées GPS: 40.67775, 41.65795

"The best way to get there is to get in contact with Cengiz Kocak. There is actually one small car we call base bus here in Uzundere and they offer shuttle to the exit. Approach: Hiking path is quite easy and there is no ascend or descent. It is just a plain walk for 15 mins."

Terrain Profile: There is one minor ledge at 83 meters then it is like 160 meters height to start. This exit needs left turn after 4 seconds towards the landing area.
