
Caractéristiques

- **Lieu** : Artvin, Turquie
- **Orientation** : Nord
- **Hauteur** : 445m
- **Matériel** : Rien
- **Posé** : "It is a big field and the wind at the landing is mostly from east. There is Oltu river between landing and exit so river line is pitch line actually. Return Trip: It makes sense to have driver friend but if not, you need to walk like 30 mins to your car."
- **Première** : Cengiz Kocak in 2020

Acces: 0:20m

Exit Coordonnées GPS: 40.75225, 41.78827

"The best way to access is to drive to village Darica and then start hiking to exit point. After you reach the village Darica, you'll see a bridge in the center of the bridge. Turn right just after the bridge and park your car somewhere then start hiking. Approach: It is 40 min hike. You will gain 400 meters in 2 km."

Terrain Profile

230-12

260-39

290-75

393-179

455-279

Remarque

"This is safe object for SD, SU, track suit and wingsuit. We were 2 jumpers and one jumped SD, other did WS."
